[FCC ENVIRONMENTAL HOUSTON MATERIAL RECOVERY FACILITY GROUNDBREAKING]

[FCC Environmental Services]

[HOUSTON, TEXAS, July 5—] FCC Environmental Services along with the City of Houston, announce the groundbreaking ceremony of the new Material Recovery Facility. The groundbreaking ceremony will take place on Tuesday, July 10th at 9: am, at 9172 Ley Rd., Houston, TX 77078. Speakers will include: Mayor Sylvester Turner; Councilmember Jerry Davis; Harry Hayes, Houston's Solid Waste Management Department Director; Inigo Sanz, FCC CEO and Tony Emilio, FCC Director of Municipal Services.

The facility will be FCC's flagship recycling center in the US and will stand as a model for the technological advancements and state of the art facilities. It will include the last technology in glass screens, optical sorters, extra-wide screens for fiber and will have climate conditioning for sorters. It will include a program that not only accepts glass, but also processes and cleans the material in order to create new products. The facility also has the growth capacity to accept new materials

FCC has purchased the property and invested more than \$23M for this project. FCC will give full ownership of the property, building, and recycling processing equipment to the City of Houston at the start of the processing services. FCC has committed to the City of Houston in a multitude of ways, including, creating over 100 jobs, using MWBE and local contractors, and creating a \$1.5 million education center with donated educational funds reaching \$3 million.

FCC is a multinational, public company with more than 100 years of experience in municipal services, providing service to more than 100 million people in 5,000 cities in 35 countries. FCC's Dallas Material Recycling Facility (MRF) was recently awarded as the best recycling facility in the US by the National Waste Recycling Association (NWRA) for its innovation and efficiency in the quantity and quality of the materials recovered.

General Contractor: Horizon International Group, LLC

Architect: Powers Brown Architects

Structural Engineers: Dally + Associates
